

LOAD ASSIST 2000

Palamatic
PHARMACEUTICAL
Systems

PRODUCT INFORMATION

- Load Assist is a mobile, battery operated lifting and loading machine for roll stock reels.
 - It will effortlessly lift reels directly from pallets, quickly convey them to your production area and present them at the precise height for loading onto the packaging machine.
 - By removing the need for manual lifting, the risk of operator injury and material damage due to mishandling can be avoided. With a lifting capacity of 125kg, Load Assist 2000 offers the opportunity of using heavier, bigger reel stock... reducing reel changeover frequency and line downtime.
 - The easily replaceable arm system further extends the usefulness of the Load Assist 2000 enabling any number of routine lifting and manoeuvring operations to be carried out in complete safety.
 - 125kg (275lbs) lifting capacity
 - Approved to BS5777 and ISO 5766
 - Hygienic stainless steel construction
 - Low voltage battery operation (12V DC) with built in charger
 - Interchangeable arms
 - Suitable for Europallets
 - Compact footprint - 500mm (20")x 750mm (30") 2015mm (80") high
 - All electrics are protected to IP65.
- Special arms can be manufactured for applications not covered by our standard options.*
