

PNEULIFT COMPACT

Example of Palamatic's PneuHoist-C (Compact version). Pneumatically actuated gripping jaws are used to securely grip the plastic bag before it is lifted clear of the keg and placed on an adjacent dispensing table.

PRODUCT INFORMATION

TYPICAL APPLICATION:

Lifting container liner or bags (plastic/paper) of product out of or into drums and boxes

LOAD CAPACITIES:

Up to 240kg (528lbs)

STANDARD VERTICAL STROKE RANGE:

600, 1200 and 1800mm (24', 47 and 70')
(Refer to Palamatic for stroke variations available)

SUITABLE FOR:

Primary
Secondary
Barrier containment
Warehouses

FINISH OPTIONS:

Mild steel to 316 cGMP.

FEATURES:

- Offers the perfect solution for restricted headroom areas such as within laminar and downflow booth environments.
- cGMP design with FDA approved materials used for all seals and gaskets
- Optional end effectors to suit almost any product within the Pharmaceutical industry.
- The unit can be suspended from any of our hygienic swing jib, articulated arm jib or overhead gantries. Floor ceiling or wall mounted options are available with systems designed to maximise production space for the operator.
- Low noise levels and easy maintenance complete with a two year warranty and validation documentation ensures a quality handling solution.
